

Northeastern Interstate Forest Fire Protection Compact

Purpose

To provide the means for member states and provinces to cope with fires that might be beyond the capabilities of a single member through information, technology, and resource sharing (mutual aid) activities.

Summary

Liability

An individual who provides aid in another state under the compact will not be held legally responsible for acting or failing to act.

Scope of Practice

An individual who provides aid in another state under the compact will have the same powers, duties, rights, privileges, and immunities as they would have if they were employed by the state in which they are providing aid.

Workers' Benefits

An individual who provides aid in another state under the compact is entitled to workers' compensation benefits if they are injured or killed while providing aid.

Article IX: Status of Persons Rendering Aid; Liability; Reimbursement; Compensation and Death Benefits

Whenever the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of such state shall, under the direction of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the state to which they are rendering aid.

No member state or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith. All liability that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

Any member state rendering outside aid pursuant to this compact shall be reimbursed by the member state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries, and

maintenance of employees and equipment incurred in connection with such request. Provided, that nothing herein contained shall prevent any assisting member state from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such services to the receiving member state without charge or cost.

Each member state shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

For the purposes of this compact the term employee shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding state under the laws thereof.

The commission shall formulate procedures for claims and reimbursement under the provisions of this article. Aid by a member state to an area subject to federal jurisdiction beyond the borders of such state shall not be required under this compact unless substantially the same provisions of this article relative to powers, liabilities, losses and expenses in connection with such aid are embodied in federal laws.
